Office Action Summary

Art Unit: 1624

The claims in the application are claims 1--6.

This application has been found to contain more than one invention. Therefore, restriction to one of the following distinct inventions is required:

- (I) Claims 1, 2, 5 and 6 drawn to pyrimidines and a use thereof.
- (II) Claims 3 and 4 drawn to multiple methods of making the compounds.

These distinct inventions have acquired separate status in the art, will support separate patents, and will require different fields of search for the respective inventions. Accordingly, restriction for examination purposes, as indicated, is considered proper; 35 U.S.C. 121; 37 CFR 1.141 and 37 CFR 1.142 and 37 CFR 1.475.

MPEP 806.05(f) provides for restriction where the compounds, claimed, may be made by more than one process.

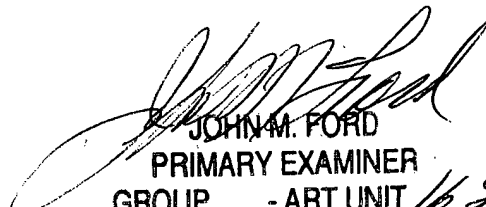

Claims 3 and 4 become evidence claims to that allegation.

Art Unit: 1624

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

This applicant has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicants' cooperation is, therefore, requested in promptly correcting any errors of which they may become aware in the specification.

Applicants' response must include a provisional election, even if the requirement be traversed, see 37 CFR 1.143 and 37 CFR 1.144; 37 CFR 1.499.
